**The aim** of the educational program is training specialists in the field of historical and oriental studies, focusing on the analysis of both internal processes in the countries of the East (primarily China, Japan) and international regional processes and comprehensive study of the Asia-Pacific region.

The Master's program provides an interdisciplinary approach to vocational training with integral courses, which combine elements of history, theory and history of international relations, economics, political science, law, sociology, and other human and social sciences. The study of migration problems, cultural contacts and ethnic identity play an important role in the education system of masters.

## **Key disciplines:**

- Contemporary Problems of Asia and Africa
- History of Russian-Chinese Relations
- Ethnography of the Peoples of Asia
- History of Social and Cultural Development of Siberia

**Competitive advantages:** the acquired education forms the researcher of high qualification and professional level, who is able to solve vital and perspective tasks in the field of universal history independently and in collaboration with colleagues. The quality of education is ensured by the leading historians of Siberia in the field of oriental studies, ethnology, the history of Siberia and international relations.

**Employment:** general education organisations, professional educational organisations and educational institutions of higher education, specialized scientific institutes and other research institutes, archives, museums, cultural institutions, expert and analytical centres, public and state organisations, dealing with information and analysis, the media (including electronic media), public authorities and local authorities, tourist and excursion organisations.

## **Specializations within this programme**
