**The aim** of Project Management degree program is to provide a high-quality modern education for project management specialists who are capable of practical implementation of acquired knowledge in science, industry, business and educational activities, transformed through knowledge, experience and development of scientific and educational technologies.

**The objectives of the program:** to create a system of cultural and professional competencies that allow effective implementation of research, project-economic, analytical, organisational, managerial and pedagogical activities in the field of investment and innovative projects management at all stages of its implementation in order to achieve sustainable development of organisations and enterprises.

**Competitive advantages for a graduate:** a focus on investment and innovation components of project management, on training specialists who are well oriented both in project management procedures and in issues of interaction with investment institutions and markets and are able to interact with the external environment when working with projects of various sizes.

As a result of mastering the program, the graduates receive system knowledge in the field of project management methodology, as well as professional skills and analytical skills to make effective strategic decisions on managing projects, programs and a portfolio of projects. The teachers of the program have undertaken internships (and are certified) in the largest centres for training specialists in project management, financial management and other aspects of a market economy: Economic Development Institute of the World Bank (Washington, USA); School of Management LUISS (Rome, Italy); Training centre of management ISVOR-FIAT (Turin, Italy), etc.

**Employment:** financial, industrial, economic and analytical services of organisations, institutions, enterprises, firms implementing investment and innovation projects; large organisations with innovative divisions; project offices; departments for strategic development; divisions of state and municipal authorities; expert and consulting companies.
