The program is **aimed** to develop the students' personal qualities and cultural and professional competencies in accordance with the federal state educational standard for major Jurisprudence. The graduates of program Public Authority: the Legal Framework of the organisation and Activities will

- be able to carry out their professional activities on the basis of constitutional principles and values, guided by legal awareness;
- get an understanding of public authority, executive authorities at various levels, parliamentarism;
- get the awareness of forms and methods of legal influence within the framework of subordinate legal relations;
- study the patterns of organisation and activities of public authorities, especially the functioning of the legal (legislative, administrative, jurisdictional) process.
- mastering the specifics of various forms of coercion and sanctions applied for violating the norms that are the subject of regulation of public law sectors,
- develop skills in professional legal activities in the framework of interaction with public authorities and working in these bodies.

Program tasks:

- to give a comprehensive interdisciplinary understanding of the organisation and activities of public authority;
- to carry out interdisciplinary scientific activity and research in the field of organisation and activities of public authority;
- to prepare a competitive graduate capable of carrying out activities in the system of public authority at a high professional level.

Competitive advantages for the graduate:

- leading professors give lectures in constitutional, administrative and criminal procedural law;
- legal practitioners representing the highest bodies of regional authority are involved in the program;
- famous psychologists are involved in the program;
- focus on work in public authorities and local government.
