The educational program is aimed at training highly qualified specialists in the field of adaptive physical culture and physical rehabilitation who are able to successfully master knowledge and implement it in the practical process of rehabilitation of patients with various diseases and injuries. It is designed to prepare graduates for professional activities aimed at restoring temporarily lost or impaired functions in patients and stimulating the recovery of the body through the use of appropriate complexes of physical exercises, massage, cultivation and thermal procedures, as well as other means of adaptive physical culture.

Key disciplines of the program:

Theory and methodology of adaptive physical culture; Theoretical and methodological foundations of wellness and physical rehabilitation; Modern technologies of therapeutic massage; Medical control and evaluation of the effectiveness of wellness technologies; Aspects of general pathophysiology and teratology of the human body; Methodology of scientific research and information technology in adaptive physical culture.

Partners involved in the implementation of the program:

Center for Adaptive Physical Culture of the Ministry of Physical Culture and Sports of Primorsky Krai; Research Institute of Medical Climatology and Restorative Treatment of the Russian Academy of Sciences; Regional Clinical Center for Specialized Types of Medical Care of Primorsky Krai; Center for Restorative Medicine and Rehabilitation of the FEFU Medical Center; Special (Correctional) Educational Institutions of Primorsky Krai; Institute Manual Therapy.
