The current state of Russia-U.S. relations is hardly possible to understand without looking over the history. The course emphasises the socio-cultural dimension of foreign policies and covers different issues of Russian-American affairs on which the two countries cooperated and conflicted over decades. Uniqueness and competitive advantage of this course is in its offering the social-cultural history of US-Russia relations through the lenses of knowledge production, demonstrating a significant role of the experts in academia on both sides of dialogue, instead of the traditional emphasis on purely political aspects of diplomacy.
