The aim of the programme is to train specialists in the field of language support of international business communications. You will gain skills in interpretation — both consecutive and simultaneous — as well as acquire techniques for maintaining effective communication in Russian; you will get advanced knowledge of linguistics, linguoculturology, interpersonal and cross-cultural communication, you will learn how to carry out projects, group and research activities. The demand for graduates of this programme is ensured by the active development of business communications and international business projects in the modern world. You can fulfil your potential in such fields as management and supervision of international business projects, international business communication expertise, translation for business and research. The programme curriculum has been developed based on the theoretical and methodological fundamentals of description and study of Russian as a foreign language.
