

# Computer Science and Information Studies

Siberian Federal University

Language of study: **Russian**

Mode of study: **full-time**

Duration: **3 years**

Availability of free education: **no**

Price: **197 810 rub. per year**

Programme curator: **Postgraduate office**

Tel.:

E-mail: [aspirantura@sfu-kras.ru](mailto:aspirantura@sfu-kras.ru)

Graduates pursue careers in research into a high-impact field of digital technologies.

Our doctoral students focus on developing concepts, research questions and models in mathematics and physics. They work with numerical algorithms and develop software. They use experimental approaches to study the properties of materials in physics, chemistry and other sciences.

## Specializations within this programme

Systems Analysis, Data Management and Processing (05.13.01)

Theoretical Computer Science (05.13.17)

Mathematical Modeling, Numerical Methods, Software Engineering (05.13.18)
