Programme Focus:

Master in law is a highly qualified professional, who plays a leading role in developing the Russian economy and law and in forming the development areas which are a driving force for dealing with the organization's resources effectively to achieve their goals! The programme is aimed at training a new generation of lawyers putting a focus on highly efficient legal support of large holding companies, including foreign participation.

Programme advantages:

We found the best combination of theoretical and practical knowledge and skills required by the successful lawyer of today.

In the market economy, graduates of the Institute of Law are among the most prestigious and popular specialists, whose work and abilities are relevantly paid on the labour market.

The Master's programme "Corporate Lawyer" is offered to Russian universities' graduates and to international students as well.

Graduates' expertise and career opportunities:

The Master's programme is practically oriented. Master students are prepared to work in the Russian, foreign and international companies carrying out economic activities independently or providing legal services including the participation in dispute resolution.

Graduates with a high level of knowledge, skills and practical experience are in great demand on the labour market, they work in the Russian and international companies and law firms, such as Clifford Chance, Dechert, EPA & P, Leroy Merlin and others.
