## **Description:**

An educational programme jointly run by MTS and Skolkovo Moscow School of Management and Innovation. "Digital Technology in Business" is a new type of master's programme that combines the educational technologies of MIPT and SKOLKOVO, project work, and MTS business expertise. Graduates receive a state diploma from MIPT and a professional retraining diploma from the SKOLKOVO business school. Graduates will learn how to create and manage products. This experience will help them find work in companies that are leaders in the digital economy, in positions related to the development and launch of new products on the market, or launch their own project.

## **Specializations within this programme**
