Programme Focus:

The programme provides guidance on the methods and mechanisms of organization of public procurement, their legal confirmation, as well as on the techniques and methods of implementation. The programme develops the specifics of the institution in the process of regulating entrepreneurial and other economic activities.

Programme advantages:

The programme includes the author disciplines, which are based on the analysis of Russian and foreign legal framework.

The uniqueness of the programme lies in the fact that the disciplines included in this course meet the requirements of leading foreign universities.

Graduates' expertise and career opportunities:

The programme was prepared with due account of the views and contribution of practicing lawyers and economists in various economic fields of public and private business activities. The graduates of the programme are prepared to work both in state bodies, state corporations, regulating economic and business activities, and in major companies providing legal services in all areas of economic activities, including the opportunity to participate in adjudicating administrative disputes.
