Programme Focus:

Natural resources, land and environmental branches of law currently play the leading role in the system of Russian law.

The subject of natural resources, land and environmental law are the social relations in the sphere of environmental protection, use and protection of land, mineral resources, water, forests and wildlife.

Programme advantages:

Sustained interest to these areas of law in research is explained by the need to ensure the mutual interests of the individual, society, state, and entrepreneurs in use, development of natural resources, assurance of environmental rights of citizens, and respect for the public interests.

Graduates' expertise and career opportunities:

Lawyers specialized in the field of natural resources, land and the environmental law, are in demand in the legislative, executive and judicial branches of power, and in the business sector. Graduates can also apply their knowledge in investment, including foreign investment, urban development activities, construction and use of buildings.
