This programme is designed for foreign citizens who plan on using the Russian language in their professional activities. The field of professional activity of this programme's graduates includes: philology and humanitarian knowledge; interpersonal, intercultural, and mass communication in oral, written and virtual form. The specialists will work with languages in their theoretical and practical aspects; fiction and folklore; various forms of texts; verbal, written, and virtual communication.

The students take part in international scientific conferences and exhibitions. Project-based training involves the creation of a case of linguistic and methodological materials. For example, students participate in the development and creation of a country-specific online course on Russian as a Foreign Language, which takes into account the peculiarities of the native language and has additional information in the native language.

All the students complete practical training by teaching groups of international students.
