

Laser Equipment and Technology Engineering

National University of Science and Technology MISIS

Language of study: **Russian**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **yes**

Price: **245 000 rubles/per year**

Programme curator: **Serguey Gorbatuyk**

Tel.: **+7 499 230-25-47**

E-mail: sgor02@mail.ru

The program covers training in the field of design and improvement of laser equipment and technology, and cultivates skills related to development and use of laser treatment processes for materials and products in research and high-tech branches of science and industry.

Specializations within this programme

- Laser equipment and technology engineering.
- Engineering and consulting in development and application of laser treatment processes for materials and products.
