National University of Science and Technology MISIS

Language of study: **Russian**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **yes**

Price: **245 400 rubles/per year**

Programme curator: **Gennady Podgoretsky**

Tel.: **+7 495 955-00-22**

E-mail: podgs@misis.ru

The program is intended for a comprehensive study of the theoretical basics of ferrous metal derivation. Master's degree students explore one of the following three areas: raw material preparation for metallurgic refining; cast iron production, or direct ore reduction methods in metallurgy. For R&D purposes they use the equipment in the department labs and the Innovation Metallurgical Technology Research and Education Center. State-of-the-art equipment is used to determine the material physical and chemical properties.

Specializations within this programme

Master of Engineering and Technologies, Metallurgy
