

Ferrous Metal Extraction

National University of Science and Technology MISIS

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **yes**

Price: **278 000 rubles/per year**

Programme curator: **Gennady Podgoretsky**

Tel.: **+7 495 955-00-22**

E-mail: podgs@misis.ru

The program aims to create appropriate environment for postgraduates to acquire expert knowledge in ferrous metallurgy for their future professional activities. For R&D purposes they use the unique equipment in the department labs and the Innovation Metallurgical Technology Research and Education Center. Other sites for student research are experimental plants of multi-fuel gas generator and pilot bubble reactor plant at industrial sites in Istra and Mtsensk. Postgraduate field work takes place at Metprom group large engineering and design center.

Specializations within this programme

Researcher. Lecturer and Researcher, Materials Engineering and Ferrous Metal Extraction
