Kazan Federal University (KFU) is one of the oldest universities in Russian and was founded more than 200 years ago. It is the main educational centre of Tatarstan. Since 2009, it has held federal university status.

Today, KFU has:

- Over 2500 lecturers and researchers;
- 43 300 students;
- 300 Bachelor's, Specialist and Master's Degree Programmes and Postgraduate Programmes.

The university is noted for its academic schools in mathematics, physics, biology, chemistry, and linguistics. In terms 1

of research, KFU gives priority to developments in pharmacology, biomedicine, geology, physics, chemistry, oil and gas, nanotechnologies and information technologies (IT), psychology and cultural studies, humanities, pedagogical and inter-disciplinary spheres.

KFU is a national research centre comprising 33 modern laboratories. They conduct research in the sphere of economics, electrosynthesis of aromatic compounds, applied radiophysics and applied mathematical modelling.

New laboratories in the fields of physics, biology, biomedicine, geology, ecology and chemistry will open soon.

KFU has almost 40 years' experience in teaching international students.

Today, KFU comprises 17 institutes, 3 higher schools and 3 branches in cities located in the vicinity, which specialise in the following subjects:

- Physical and mathematical sciences.
- Natural sciences.
- Medicine.
- Education and pedagogy .
- Humanities.
- Social sciences.
- Economics and management.
- Geology and mineral prospecting and development.
- Automation and control.
- Services sphere.
- Culture and arts.
- Information science and computer technology.
- Geodesy and land management.
- Life safety, environmental engineering and environmental protection.

Les Olympiades

[Academic competitions](#)

March-April

Olympiads are held in 20 subjects and have online and onsite rounds. Preliminary round winners are invited to participate in the finals. The 11th grader who wins the first place in the onsite competition gets an extra five points to the Unified State Examination score when applying to Kazan Federal University; the second and third place winners are entitled to three extra points. The winners (11th graders) of the onsite competition in chemistry and physics apply to KFU as top EGE scorers in these disciplines.

[“I’m a KFU master’s student” International Olympiad](#)

January-May

Bachelor’s and specialist’s degree holders are welcome. The Olympiad, held in 56 fields, is made up of the online round and the finals on KFU premises. To take part in the competition complete the registration and select “testing” in your personal account in the section Olympiad for Prospective KFU Masters Students. Olympiad winners are eligible for admission to KFU graduate programmes without entrance examinations.
