SPbPU is the oldest technical university in Russia and is also a national research university.

The university's graduates are in demand across research, design and business.

## **SPbPU offers its students:**

- A wide selection of study programmes (Bachelor's, Specialist and Master's Degrees, Postgraduate Studies Programme);
- Teaching from the best lecturers of St. Petersburg and European universities;
- Internships;
- Academic mobility programmes;
- Double degree programmes;
- Scholarships;
- Assistance gaining employment with companies that are leaders in the global market.

Since the foundation of the university in 1899, a huge number of its graduates have received worldwide recognition in various spheres and won prestigious awards, including the Nobel Prize.

## **Student successes**

## **International partnership**

**SPbPU has over 295 strategic foreign partners. Among them are:**

- Tsing Hua University, China.
- Zhejiang University, China.
- Technical University of Berlin, Germany.
- The Technical University of Milan, Italy.
- Stuttgart University, Germany.
- Hannover Gotfried Wilhelm Leibnitz University, Germany.
- City University London, UK.
- Universitat Politècnica de València, Spain.
- Lappeenranta University of Technology, Finland.
- Technical University of Graz, Austria.
- Belorussian-Russian University, Belarus.
- Russian-Armenian (Slavonic) University, Armenia.
- Technical University of Madrid, Spain.
- Hong Kong Polytechnic University, China.

## **Olimpiads**

### **Preparatory department for foreign applicants**

#### **Other types of training**

More than fifteen thousand students from all over the world have participated in the SPbPU supplementary education programmes during the fifty plus years of their existence. SPbPU guarantees full compliance of its educational programmes with requirements of the RF Ministry of Education. Notably, the students who are studying under the programme of supplementary education at SPbPU spend more than 50% of all educational process in studying Russian under the guidance of highly qualified specialists. These programmes were developed with thorough consideration of the results of researches on international students' adaptation.

Programmes of the pre-university tutorial are necessary for the students of Bachelor, Specialist, and Master's degree and postgraduate students intending to study at Russian universities. In this case, besides perfecting and systematization of their knowledge in the field-specific disciplines, they also master in oral and written Russian and improve their language skills through communications with native speakers. For engineering majors in pre-master year special groups are formed starting the second semester to offer an insight into particular areas of the major field of study and language tuition.

At SPbPU, foreign students may take courses of supplementary education on both fee paid and budget-funded basis. The budget-funded education should be based on a quota received from the Russian Ministry of Education.

In the process of their education, the students can use to the full extent the functional of the library fund, electronic resources, special computer and lingaphone auditoriums, and wireless Internet provided at the university campus.

At the end of the educational process, the students should pass tests and receive certificates. Students completing tuition in a program offered by SPbSTU are eligible to apply for Bachelor and Master degrees at SPbSTU upon taking the admission interview.

Students can choose from three supplementary educational programmes:

### **“University Foundation Standard Program”**

Admission period: 01.09 – 31.10

Studies are carried out in engineering, humanitarian, and economic fields

### **“University Foundation Intensive Program”**

Admission period: 01.11 – 01.12

Studies are carried out in engineering, humanitarian, and economic fields

### **Russian Language Courses on “Preparation for University Enrollment: Russian as a Foreign Language”**

Admission period: 01.09 – 01.12

Studies are carried out in the humanitarian field with advanced language learning.

## **Support of foreign students**

A group of tutors helps students get an easy and quick start at the university and supervises all programmes taught in English. Students who wish can get a work permit to work outside of the university. There are on-campus and faculty job opportunities for full-time students.

## **Everyday life of foreign students**

The university has a student housing complex comprised of several residential buildings, two of which are occupied strictly by international students. The dormitories are within walking distance from the departments located on campus.

Paid additional services are available in campus dormitories for foreign students: internet, student lounges, emergency medical center, sports facilities, self-service laundry, and a café.

## **Leisure and sport events**

The Institute has a variety of social activities to suit many different tastes – festivals «Golden Autumn», «The Day of Russian Language», «Birthday of A.S. Pushkin», «Maslenitsa» (Russian Pancake week), «The Small Olympic Games».

Sport represents a lively section of the social life on University campus. A swimming pool and a fitness center are available for students.

## **Employment of foreign graduates**

Most graduates find jobs in their field of studies. Most sought after majors in the job market today are construction engineering, nuclear power and technology, metallurgy, electronics and nanotechnology, machine building.

## Events

**Polytech Days in Berlin 2020** 06 – 07 February, 2020  
Berlin (Germany)
