Siberian Federal University (SibFU) was founded in 2006 in order to train highly qualified specialists and to develop innovative technologies for production facilities located in the harsh conditions of the north. It is difficult to find another region in our country that has more national projects or as many points of growth in education, science, and industry.

Today, SibFU is the largest university beyond the Urals. We have more than 27,000 students from various Russian regions and 50 foreign countries, including 25% students from other regions of Russia and 900 students from the CIS and other foreign countries. The university has 4,500 students whose tuition is government-funded, which is the second largest number of government-funded students among Russian universities.

SibFU is rightfully called the fastest growing university of the Russian Federation. During its existence, the university has made significant progress in Russian and international ratings. The university is in the TOP-15 of the national rating of universities and ranks sixth according to employer feedback (in terms of the demand for graduates). SibFU has 4 stars in the QS Stars rankings. In the same rankings, SibFU has 5 stars, which is the highest achievement, in terms of quality of education, innovations, and infrastructure. SibFU is one of the 1000 best universities according to the QS World University Ranking.

## Scientific Research

The university has tremendous opportunities for the development of fundamental and applied research. Thanks to targeted investment, it has advanced instrumentation.

### Priority areas of research:

- natural resource management, ecology, and sustainable development;
- metallurgy, geology, and geotechnology;
- hydrocarbon processing and transportation;
- IT;
- advanced navigation and communication systems;
- power engineering;
- new construction technology;
- industrial biotechnology and biomedicine;
- oil and gas extraction;
- sports management and sports technology;
- socio-cultural research into issues concerning the preservation of indigenous peoples of the North.

One area of research is the environmental management of unique areas such as the taiga and the Arctic using a comprehensive approach. SibFU is a leader in the field of ecology and environmental studies, sustainable development, forestry, geography, remote sensing of the Earth, biophysics, biogeochemistry, and other specialist areas thanks to its advanced scientific schools and cooperation with foreign partners. SibFU also operates 16 small innovative companies that provide technology and consulting services.

### Today, SibFU has 82 research laboratories, including 2 international science and research laboratories:

- Laboratory of Ecosystem Biogeochemistry, founded with the participation of Professor Arzac Peña Alberto Jose (Spain);
- Laboratory of Forest Genomics, headed by Krutovsky Konstantin Valerievich.

## Student successes

## **International partnership**

### **Preparatory department for foreign applicants**

#### **Preparatory department for Bachelor's programme**

Pre-Admission Russian as a Foreign Language Department for International Students is affiliated to the School of Philology and Language Communication. Here students study Russian as a foreign language and can optionally take other subject courses (non-degree training for undergraduate programs) to enroll in SibFU and other universities of the Russian Federation. Courses are taught in the following academic areas: Humanities, Natural Sciences, Engineering, and Technology.

The Pre-Admission Department offers the following Russian-as-a-foreign-language courses:

- Russian Language Program (TRFL, Level I), 880 contact hours, 12 months (1.09 – 31.08);
- Russian Language Program (TRFL, Level I), 720 contact hours, 10 months (1.09 – 30.06);
- RFL Summer Course, 160 contact hours, 2 months (1.07 – 31.08) individual training program;
- individual training program.

The non-degree training courses in the PAD are intended to prepare internationals to take full-degree programs at SibFU and other universities of Russia.

Non-degree training courses for international students are aimed at providing them with basics in subjects which they will be taking in their full-degree programs at Russian universities in the future. This service is offered:

1. on a fee-paid basis; OR;
2. for free to students coming with the Ministry of Education and Science of the Russian Federation referral, in which case the fees are covered by the Russian Federation budget.

After a course completion, students can take a standardized test for a certificate of Russian as a foreign language at the Siberian regional centre for training and testing of foreign citizens.

### **Preparatory department for Master's programme**

In Pre-Admission Russian as a Foreign Language Department for International Students of SibFU, students not only learn the Russian language, but can also be offered non-degree training before applying for Master's Programs.

### **Other types of training**

Pre-Admission Russian as a Foreign Language Department for International Students of SibFU is flexible in their offers; it provides programs in Russian as a foreign language of different duration aimed at various types of learners, including doctoral students.

### **Support of foreign students**

SibFU has several divisions that provide support to foreign students and teachers in the field of cultural, consumer, and academic adaptation; in particular, the Office of International Relations has a department in charge of the social and cultural adaptation of foreigners. In addition, the Department of Migration Service provides visa support and migration registration and also organises activities to support the adaptation of international students and lecturers to everyday life, the educational and research environment, and the cultural space.

### **Everyday life of foreign students**

All international students are provided with housing on campus in new dormitories with rooms arranged in blocks. The dormitories are conveniently located close to the buildings where classes are held as well as to the university laboratories and the library. Each residential unit in the dorm has two bedrooms, each for two or three students; there is also a bathroom and a kitchen with all the necessary equipment: an electric stove, a refrigerator, a microwave oven, and an electric kettle. According to MON-2014 (All-Russian Independent Student Monitoring), the SibFU dormitory is the best in Russia. To maintain the health of its students, the university has two health centers, two medical centers, student health resorts, two recreational camps, and a sports camp.

### **Leisure and sport events**

The university has modern sports infrastructure, including sports and recreation complexes, sports centers with swimming pools, stadiums, ski resorts, gyms, and courts. Each year the University hosts over 250 sporting events.

In 2019, Krasnoyarsk is to hold the XXIX World Winter Universiade. The Universiade Village will be located on the campus of SibFU and of the Academy of Winter Sports, the main site of the Universiade.

SibFU has a Student Culture Center, where students have an opportunity to engage in creative activities in some of the 85 artistic unions. Over 150 cultural events are held every year. Each year the university's foreign students also take part in the city-wide inter-university festival "Students without Borders".
